4.6 No Personal Liability

Neither the Mayor, the Council, the Engineer, nor any other officer or authorized assistant or agent shall be personally responsible for any liability arising under the contract.

4.7 Responsibility of City

The City shall not be held responsible for the care or protection of any materials or parts of the work prior to final acceptance, except as expressly provided in these Special Provisions.

4.8 Domestic Materials

Only such materials shall be used in the performance of this contract as conform to the requirements of Chapter 4 of Division 5 of Title 1 of Government Code of the State of California except as otherwise provided in certain treaties and general trade agreements of the United States.

4.9 Apprenticeship Requirements

Attention is directed to the provisions in Sections 1777.5, 1777.6 and 1777.7 of the Labor Code concerning the employment of apprentices by the Contractor or any subcontractor under him.

Section 1777.5, as amended in 1989, requires the Contractor or subcontractor employing tradesmen in any apprenticeable occupation to apply to the joint apprenticeship committee nearest the site of the public works project and which administers the apprenticeship program in that trade for a certificate of approval. The certificate will fix the ratio of apprentices to journeymen that will be used in the performance of the contract to be not less than one to five hours except:

When employment in the area of coverage by the joint apprenticeship committee has exceed an average of fifteen percent (15%) in the ninety (90) days prior to the request for certificate; or

When the number of apprentices in training in the area exceeds a ratio of one to five (1:5); or

When the trade can show that it is replacing at least 1/30 of its membership through apprenticeship training on an annual basis statewide or locally; or

When the contractor provides evidence that he employs registered apprentices on all of his contracts on an annual average of not less than one apprentice to eight journeymen; or

When a joint apprenticeship committee submits an application to DAS for an alternative ratio based on a 1:5 daily worker count if the hourly ratio is not feasible for that particular craft or trade.

In addition to the above exceptions, contracts of specialty contractors not bidding through a general contractor and involving less than twenty (20) working days or Thirty Thousand Dollars (\$30,000) are exempt from the provisions of Section 1777.5. This is the same exemption that applies to contracts of general contractors. However, a subcontractor bidding through a general contractor must comply with Section 1777.5 no matter how small the subcontract if the contract between the general contractor and the awarding body is covered by Section 1777.5.

Effective January 1, 1990, the Contractor must promptly provide certain contract award information to the joint apprenticeship committee of the apprenticeable craft or trade in the area of the site of the public work. This contract award information must include an estimate of the journeymen hours required, the number of apprentices to be employed, and the approximate date of apprentice employment.

The Contractor is required to make contributions to local funds established for the administration of apprenticeship programs or to the California Apprenticeship Council if he employs registered apprentices or journeymen in any apprenticeable trade on such contracts and if other Contractors on the public works site are making such contributions.

Noncompliance by the Contractor and subcontractor under him with the requirements of Sections 1777.5 and 1777.6 shall result in denial of right to bid on contracts and civil penalties as more particularly set forth in Section 1777.7.

Information relative to apprenticeship standards, wage schedules and other requirements may be obtained from the Director of Industrial Relations, ex-officio the Administrator of Apprenticeship, San Francisco, California, or from the Division of Apprenticeship Standards and its branch offices.

4.10 Subcontracting

Attention is directed to the provisions in Section 5-1.13, "Subcontracting" of the Standard Specifications. The "Subletting and Subcontracting Fair Practices Act" (Public Contract Code Section 4100 through and including 4114, inclusive) shall apply to the work the subject of this invitation. Said Act requires subcontractors, if used for such work, to be listed and identified in the prime contractor's proposal. It further prohibits the substitution of subcontractors, except as therein specifically authorized (Section 4107 and 4107.5); said Act provides that if the prime contractor fails to specify a subcontractor or specifies more than one subcontractor for the same portion of the work to be performed, in excess of one-half of one percent of the prime contractor's total bid,

under those circumstances, it shall be presumed that the prime contractor agrees that he is fully qualified to perform the work himself and that he shall perform the work himself. Each bidder shall, with respect to the work the subject of this invitation, list in his proposal:

The name and location of the place of business of each subcontractor who will perform work or labor or render services to the prime contractor, specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of one-half of one percent of the prime contractor's total bid.

The portion of the work which will be done by each such subcontractor. One subcontractor shall be listed for each such portion.

4.11 Differing Site Conditions

During the progress of the work, the Contractor shall immediately, and before the following conditions are disturbed, notify the Engineer, in writing, of any:

Material that the contractor believes may be hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law;

Subsurface or latent physical conditions at the site differing from those indicated;

Unknown physical conditions at the site differing from and generally recognized as inherent in work of the character provided for in the contract.

Upon written notification, the Engineer will promptly investigate the conditions, and if the Engineer finds that the conditions do materially differ or do involve hazardous waste and cause a decrease or increase in the Contractor's cost of or time required for performance of any part of the work, an adjustment, excluding loss of anticipated profits, will be made and the contract modified in writing accordingly.

In the event that a dispute arises whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of or time required for performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by the contract, but shall proceed with all work to be performed under the contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

4.12 Working Hour Restrictions

Attention is directed to the provisions in Section 7.102K(5), "Working Hours" of the Standard Specifications. Eight (8) hours of labor is a legal day's work. Any worker's time of service is restricted to eight (8) hours during any calendar day and forty (40) hours during a calendar week, unless overtime compensation is paid at not less than one and one-half times the basic rate of pay. The Contractor shall pay a penalty of Twenty- five Dollars (\$25) for each day a worker is employed in violation of these provisions.

4.13 Examination and Audit

Notwithstanding any other provision of law, every contract involving the expenditure of public funds in excess of Ten Thousand Dollars (\$10,000) entered into by any State agency, board, commission, or department, or by any other public entity, including a City, County, or District, shall be subject to the examination and audit of the State Auditor, at the request of the public entity or as part of any audit of the public entity, for a period of three (3) years after final payment under the contract. Contractor shall also be subject to examination and audit for the same time period.

End of Section

SECTION 5 – WATER AND DUST CONTROL

5.1 Water

Water, if obtained from a California Water Service fire hydrant, shall be metered and permitted through California Water Service. A service charge and deposit will be required for each meter installation required for said metering. The Contractor shall not leave any hose attached to a fire hydrant except when actually drawing water therefrom and shall keep hydrants clear for possible use by the Fire Department.

5.2 Dust Control

Dust control measures shall be taken in conformance to Section 10-5, "Dust Control" of the Standard Specifications. Contractor shall water the construction site at sufficient intervals to preclude the nuisance of dust caused by the Contractor's operations and/or wind and traffic, at no additional compensation.

End of Section

SECTION 6 – PROGRESS OF THE WORK, LIQUIDATED DAMAGES, AND CONTRACT TIME

6.1 Prosecution of Work

The City will issue a Notice to Proceed to the Contractor after the contracts have been fully executed. The Contractor shall diligently prosecute the work to completion before the expiration of the number of working days provided herein.

6.2 Liquidated Damages

Should the Contractor fail to complete all work under the contract within the time provided therefor, he shall pay to the City the sum of **one thousand dollars (\$1,000)** for each calendar day delay in finishing the work beyond such contract period, all in accordance with Section 8-1.10 of the Standard Specifications. The City may deduct such payment from the amounts due the Contractor under the contract.

6.3 Time for Completion

All work under this contract shall be completed within a maximum of **forty-five (45) working days** from the date stated in the Notice to Proceed as the date to start work.

The lead time for the poles and lighting equipment will not count against the working days on the project unless the contractor is actively working on the site during that period. Though, Contractor shall prioritize providing submittals for items with extended lead times.

6.4 Extension of Contract Time

If the Contractor finds it impossible, for reasons beyond his control, to complete the work within the contract time as specified or as extended in accordance with the provisions of this subsection, he may, at any time prior to the expiration of the contract time, as extended, make a written request to the Engineer for an extension of time, setting forth therein the complete facts which he believes will justify the granting of such request.

The Contractor's pleas that insufficient time was originally specified shall not constitute a valid reason for extension of contract time. If the Engineer determines that the prosecution of the work was delayed or hampered by conditions beyond the control and without the fault of the Contractor, he may extend the time for completion in such amount as conditions may justify. Such extended time for completion shall then be in full force and effect the same as though it were the original time for completion.

Suspension of work by the Engineer, or extension of the contract time, shall not constitute grounds for any claims by the Contractor for damages or extra compensation, but the period of such suspensions or extensions shall be taken into consideration in determining the time for completion, as herein provided. When final acceptance has been duly made by the Engineer, as prescribed in Section 3.5, the daily time charge will cease.

Any dispute hereunder shall be considered pursuant to the Standard Specifications, and the Contractor shall give immediate notice to the Engineer, along with all pertinent facts relative to such dispute.

Subsection not used in this contract.

6.5 Force Account Payment

The added markup of Labor, Materials, and Equipment Rental as listed in Sections 9-1.04B, "Labor," 9-1.04C, "Materials," and 9-1.04D, "Equipment Rental," are amended as follows:

To the total of the direct costs there will be added a markup of 15 percent to the cost of labor, 12 percent to the cost of materials and 12 percent to the equipment rental.

6.6 Pre-construction Conference

Prior to the issuance of the Notice to Proceed, a pre-construction conference will be held at the office of the Public Works Director for the purpose of discussing with the Contractor the scope of work, contract drawings, specifications, existing conditions, materials to be ordered, equipment to be used, and all essential matters pertaining to the prosecution and the satisfactory completion of the project as required. The Contractor shall provide the following items at the pre-construction conference:

- Schedule
- Jobsite Photographs

The Contractor's representatives at this conference shall include all major superintendents for the work and may include major subcontractors.

End of Section

SECTION 7 – PAYMENT

7.1 General

Payment will be made on the basis of the unit prices bid for the various items of work and the quantities of such items completed, and measured in accordance with these Special Provisions.

The prices bid for the various items of work, as listed on the bid schedule, shall be full compensation for furnishing all labor, tools, equipment, materials, and services required by the Plans, these Special Provisions, and the Standard Specifications, to provide a complete work serviceable in all respects. Unless otherwise noted on the plans or specified in these Special Provisions, no additional compensation will be made for incidental work identified in the Plans, these Special Provisions, or the Standard Specifications. Compensation for such incidental work shall be considered included in the price or prices bid, for various related items of work, in the bid schedule.

7.2 Progress Payments

The City will make monthly progress payments to the Contractor for the work under the contract. Such progress payments are not intended to imply acceptance of the work completed or to be accurate as to the quantities of work indicated, but to provide the Contractor with operating capital reasonably consistent with the amount of work completed and materials supplied.

The amounts of such progress payments will be based on the Engineer's Estimate of the quantities or portions of the work completed at the time of preparation of such estimate.

Upon Contractor's submittal of documentation of the amounts paid for acceptable materials furnished at the site, but not yet installed, the cost of such materials will be compensated in the progress payments, to a maximum of fifty percent (50%) of the associated bid price.

A retention of five percent (5%) of the total value of the work completed to date will be made from the amount due on each progress payment for partial security for fulfillment of the contract. At the Contractor's request and at his expense, he may offer to substitute securities within the meaning of Section 22300 of the Public Contract Code in an amount equivalent to the amount withheld, to wit, bank or savings and loan certificates of deposit. This option is available to the Contractor as provided by Section 22300 of the Public Contract Code and must be initiated by him by request and at his sole cost and expense, and upon such request, City shall permit the substitution of securities equivalent to the amount withheld to ensure satisfactory completion and fulfillment of the contract. Contractor shall remain the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon during the period of retention. Such securities shall be released to Contractor upon satisfactory completion of the contract, to wit, thirty-five (35) days from and after the Notice of Completion.

The securities deposited by Contractor as substitution for funds withheld shall be deposited with City pursuant to the provisions of Section 22300 of the Public Contract Code and shall be ultimately released at the conclusion and satisfactory completion of the contract as herein provided for.

7.3 Final Payment

The Engineer will, after completion of the work, make a final estimate of the amount of work done thereunder, and the value of such work, and the City will pay the entire sum so found to be due after deducting therefrom all previous payments and all amounts to be kept and all amounts to be retained under the provisions of the contract. All prior partial estimates and payments shall be subject to correction in the final pay estimate and payment. The final payment will not be due and payable until the expiration of thirty-five (35) days from the date of recordation of the notice of acceptance of completion in the Office of the County Recorder of Yuba County.

It is mutually agreed between the parties to the contract that no payments made under the contract shall be conclusive evidence of the performance of the contract, either wholly or in part, against any claim of the City, and no payment shall be construed to be acceptance of any defective work or improper material.

7.4 Resolution of Claims

This section is intended to comply with Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3 of Division 2 of the Public Contract Code and shall apply to all claims by the Contractor against the City in any amount arising out of or relating to the contract.

Claims filed by the Contractor shall be in writing and shall be in sufficient detail to enable the Engineer to ascertain the basis and amount of said claims. Claims must be filed on or before the date of Final Payment. Nothing herein is intended to extend the time limit or supersede notice requirements otherwise provided by the Contract for the filing of claims. Claims submitted by the Contractor shall be accompanied by a notarized certificate containing the following language:

Under the penalty of law for perjury or falsification and with specific reference to the California False Claims Act, Government Code Section 12650 et. seq., the undersigned, (name) _____ title _____ of (company) _____, hereby certifies that the claim for the additional compensation and time, if any, made herein for the work on this contract is a true statement of the actual costs incurred and time sought, and is fully documented and supported under the contract between parties.

My Commission Expires _____

Failure to submit the notarized certificate will be sufficient cause for denying the claim.

The Contractor shall keep full and complete records of the costs and additional time incurred for any work for which a claim for additional compensation is made. The Engineer or any designated claim investigator or auditor shall have access to those records and any other records as may be required by the Engineer to determine the facts or contentions involved in the claims. Failure to permit access to such records shall be sufficient cause for denying the claims.

For claims of less than Fifty Thousand Dollars (\$50,000), the Engineer shall respond in writing to any written claim within forty-five (45) days of receipt of the claim, or may request, in writing, within thirty (30) days of receipt of the claim, any additional documentation supporting the claim or relating to defenses to the claim the City may have. The Engineer's written response to the claim, as further documented, shall be submitted to the Contractor within fifteen (15) days after receipt of further documentation or within a period of time no greater than that taken by the Contractor in producing the additional information, whichever is greater.

For claims over Fifty Thousand Dollars (\$50,000), the Engineer shall respond in writing to all written claims within sixty (60) days of receipt of the claim, or may request, in writing, within thirty (30) days of receipt of the claim, any additional documentation supporting the claim or relating to defenses to the claim the City may have. The Engineer's written response to the claim, as further documented, shall be submitted to the Contractor within thirty (30) days after receipt of the further documentation, or within a period of time no greater than that taken by the Contractor in producing the additional information or requested documentation, whichever is greater. If the Contractor disputes the Engineer's written response, or if the Engineer fails to respond within the time prescribed, the Contractor may notify the Engineer, in writing, either within fifteen (15) days of receipt of Engineer's response or within fifteen (15) days of the Engineer's failure to respond within

the time prescribed, respectively, and demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon such written demand, City shall schedule a meet and confer conference within thirty (30) days for settlement of the dispute.

If following the meet and confer conference, the claim or any portion remains in dispute, the Contractor may file a claim pursuant to Chapter 1 (commencing with Section 900) and Chapter 2 (commencing with Section 910) of Part 3 of Divisions 3.6 of Title 1 of the Government Code. For purposes of those provisions, the running of the period of time within which a claim must be filed shall be tolled from the time the Contractor initially submits the written claim pursuant the section until the time the claim is denied, including any period of time utilized by the meet and confer conference.

As provided by Public Contract Code Section 20104.4, the following procedures are established for all civil actions filed to resolve claims subject to this section:

Within sixty (60) days, but no earlier than thirty (30) days, following the filing or responsive pleadings, the court shall submit the matter to nonbinding mediation unless waived by mutual stipulation of both parties. The mediation process shall provide for the election within fifteen (15) days by both parties of a disinterested third person as mediator, shall be commenced within thirty (30) days of the submittal, and shall be concluded within fifteen (15) days from the commencement of the mediation unless a time requirement is extended upon a good cause showing to the Court.

If the matter remains in dispute, the case shall be submitted to judicial arbitration pursuant to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, notwithstanding Section 1141.11 of such Code. The Civil Discovery Act of 1986 (Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure) shall apply to any proceeding brought under this subparagraph consistent with the rules pertaining to judicial arbitration. Arbitrators shall, when possible, be experienced in construction law. In addition to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, any party appealing in arbitration award who does not obtain a more favorable judgment shall, in addition to payment of costs and fees under such chapter, also pay the attorneys' fees on appeal of the other party.

SECTION 8 – QUANTITIES AND MATERIALS

8.1 Quantities

The estimate of the quantities of work to be done and materials to be furnished are approximate only, being given as a basis for the comparison of bids, and the City does not express or by implication agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work or to omit portions of the work that may be deemed necessary or expedient by the Engineer.

8.2 Materials

All materials required to complete the work under the contract shall be furnished by the Contractor, except such as is mentioned in these special provisions to be furnished by the City.

Damaged sanitary sewer services and storm drain laterals shall be repaired at Contractor's expense, as shown on the detail sheet on the plans. The Engineer may make or cause to be made such temporary or permanent repairs as are necessary to restore to service any damaged facility. 9.2 Obstructions

The location of underground utilities shown on the plans represent the best information available to the City but should be considered as being approximate only. Utility lines may exist that are not as shown on the plans. The exact locations of underground facilities and improvements within the construction area shall be ascertained by the Contractor before using equipment that may damage such facilities or interfere with their service. Contractor will be held liable to the owners of such facilities for any damage or interference with service resulting from his operations.

Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Note: Executive Order 13658 generally applies to contracts subject to the Davis-Bacon Act that were awarded on or between January 1, 2015 and January 29, 2022, and that have not been renewed or extended on or after January 30, 2022. Executive Order 13658 does

not apply to contracts subject only to the Davis-Bacon Related Acts regardless of when they were awarded. If a contract is subject to Executive Order 13658, the contractor must pay all covered workers at least \$13.65 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract from May 11, 2026, through December 31, 2026. The applicable Executive Order minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under Executive Order 13658 is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than SU , UAVG , SA , or SC denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024

in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The SU identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

SU wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The SA identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the SA identifier took effect under state law in the state from which the rates were adopted.
