Memo

Subject: Task 2.3: Initial Public Engagement Summary

Introduction

The purpose of this memo is to summarize the initial public engagement (Task 2.3) for the City of Marysville (City) Specific Plan and General Plan Update (Project). This summary is provided for information purposes to the City to share the engagement activities to date.

Project Background

The City has received funding under the State of California, Department of Housing and Community Development (HCD), Regional Early Action Planning (REAP) Grant Program. The REAP Grant funding is intended to facilitate housing production, promote infill, encourage transit, bicycling, and walking, enhance community assets, and provide inclusive engagement. The purpose and focus for the General Plan Update include securing economic and fiscal sustainability, expanding options for transportation, expanding housing opportunities, ensuring State law compliance, streamlining future development, and developing the 2040 planning horizon for a successful Marysville. These separate but related efforts are working towards the City reaching its full potential in 2040 and beyond.

Engagement Activities

General Plan Advisory Committee Meeting #1

On April 20, 2022, public engagement activities were kicked off with the initial presentation to inform the General Plan Update Committee members about the Specific Plan and General Plan Update process and to receive feedback that would help assess the topics and problems most important for community members and the City. The input received in this meeting guided the questions and topics that were later generated for the electronic survey to the general public.

Electronic Survey

As part of the engagement activities, a community survey was conducted seeking initial input about the critical needs that exist in the City, most important community assets, and problems and unrealized opportunities. The survey was provided in English and disseminated via the City's website and through community email contacts beginning on April 15, 2022, and remained active through May 31, 2022. There was a total of 63 survey responses.

The survey questions posed to the public are listed below and include the summaries of responses. The survey included the option for respondents to provide open-ended responses for each question. These collective responses are summarized below and can be found separately in **Attachment A**.

Question 1: Which best describes you?

Most respondents included residents (66 percent), followed by workers (33 percent), those who own a business or lead an organization focused on the City (15 percent), and the remaining included a combination of past residents, frequent visitors, nearby residents, and current or future owners of businesses in the City (14 percent).

Question 2: What do you love most about Marysville?

The respondents love the small-town charm that makes up the City the most (50 percent), followed by its history and historic architecture (40 percent), outdoor and recreational activities (8 percent), and its natural beauty (3 percent). Many respondents described how the small-town charm and natural beauty of the City has diminished over the years due to blight, traffic, litter, road conditions, and homelessness. Respondents also explained how the traffic, litter, and poor road conditions decrease the willingness and desire that individuals feel towards choosing alternative transportation modes like walking or biking. There was shared disappointment surrounding the destruction of historic architecture that has occurred in the City, with many respondents feeling that a significant amount of history has been erased which could have contributed to the City's success. Furthermore, the respondents stated that the remaining historical buildings aren't properly taken care of, which exacerbates the issue and their concern. Many were adamant that the history and historical architecture that makes up the City is an invaluable asset and that it's critical for it to be preserved. Similarly, some respondents described the threat that big-box stores and retail chains pose in destroying the City's small-town charm and historical character.

Question 3: What are Marysville's biggest challenges today?

The biggest challenge identified was property owners not investing in or making the best use of the land and buildings. This was followed by homelessness, unattractive appearances in town (trash, poor landscape maintenance), traffic and congestion during peak-period use, lack of economic and population growth, lack of identity/prestige/image, and the physicals constraints to growth. Interestingly, many respondents don't consider physical constraints to growth an issue and described it as a virtue and a beneficial feature. Instead, emphasis was placed on building upwards and optimizing utilization of land. However, some respondents are against building upwards and think that multi-units, especially near the entrance of the City, diminishes the small-town charm. There was a significant number of comments pertaining to the appearance of the City's entrance. Many respondents identify this as a crucial area to beautify in order to attract investors and future residents and improve the City's image. Respondents highlighted the importance of attracting investors and employers that will align with the City's vision to ensure that optimization of land is achieved, and unique businesses are prioritized. Overall, most respondents recognized how these issues are related and affect one another,

and therefore are all crucial. For example, one respondent noted that Ellis Lake is a significant asset to the City, but there is a large amount of trash in and around the lake as a result of homelessness, so it dissuades residents from enjoying and using it.

Question 4: What are the most valuable community assets?

The most valuable community asset identified were the major employment centers (Rideout Memorial Hospital, Caltrans, Beale Air Force Base), followed by historic areas and buildings, vacant and underutilized Downtown locations available for development, Ellis Lake and neighborhood parks, Riverfront Park, levees to be used for recreation, sport programs for children, and the Marysville Raceway. One respondent noted that although major employment centers are valuable to the City, they are unlikely to attract and retain prospective residents since there is higher-quality housing in nearby areas that individuals working in specialized jobs and making more money are more likely to want to live in, such as Yuba City. Hence, higher-quality housing in the City is necessary to optimize the long-term benefits associated with having major employment centers, like attracting future residents and contributing to population growth. There is a resounding consensus that parks need to be improved regarding their infrastructure, landscaping, and with the addition of features such as volleyball courts. Respondents are adamant that historical buildings are an invaluable asset and must be preserved and used as attractions for visitors. Some respondents claimed that it is imperative for the City to become cleaner and safer first, since quality investors and businesses are unlikely to be attracted to the City until that occurs. Furthermore, respondents noted that vacant and underutilized locations, as valuable as they are, are useless and contribute negatively to the City if they remain underdeveloped.

Question 5: What do we need more of in Marysville?

Respondents indicated that attractive destinations and events (entertainment options) are most needed in the City, followed by engaging activity and nightlife in Downtown, recreational facilities and programs for children and families, housing for residents and workforce, convenience amenities, community center and/or senior center, and hotels. With more attractive destinations and events, respondents predict that hotels would also be important to establish after visiting increases in the City; however, it is important for these hotels to feel safe since respondents claim they have become dangerous due to crimes associated with homelessness. Respondents are in strong agreement that more recreational centers are needed for activity in the community, such as swimming pools, tennis courts, volleyball courts, and such. Also, there was frequent mention of needing more restaurants and other unique and useful businesses like a bakery, wine shop, craft stores, which will increase attracting visitors and residents. Furthermore, better quality grocery stores were requested, and that the restoring of homes and businesses should be prioritized before creating new ones.

Question 6: What are the barriers to convenient and safe biking and walking to reach destinations?

The respondents identified the lack of safety features (lighting, signage, dedicated lanes for bicyclists) as the most prominent barrier to convenient and safe biking and walking to reach destinations. This was followed by not enough walking paths or bike paths, dangerous drivers, dangerous locations such as areas with higher speeds or where sightlines are interrupted, and tree cover and shade for pedestrian comfort and cooling. There is an agreement that heavy and continuous traffic is a major burden to the City and its residents as it negatively impacts safety for walking and biking and contributes to noise and air pollution. A respondent noted that the City should strive towards creating an environment which allows biking and walking to be a lifestyle choice, rather than only a weekend activity. Many respondents attributed heavy traffic as a key contributor to most of the problems facing

the City including safety, aesthetic appeal, environmental damage, and discouraging economic activity since the Downtown area poses dangers for pedestrians and shoppers. Some recommendations included the implementation of programs to slow traffic, educating drivers with signage, and exploring possibilities to change circulation to divert traffic to improve safety with biking and walking. Also, many respondents express concern that the homelessness crisis contributes toward feeling unsafe while walking and biking. Some respondents acknowledged the features that are already in place in the City to encourage walking and biking, such as tree-lined sidewalks and appealing historical architecture, but this can't be appreciated unless individuals feel safe.

Question 7: Where should the City focus investment?

The most popular focus for investment was the renovation, preservation, business development and incentives for historic areas and buildings. This was followed by streetscapes, infrastructure, Ellis Lake, traffic control/circulation, attractions and entertainment options, public transportation, hotels, and electric vehicle chargers. In addition to these topics, there was a lot of mention about the importance of promoting and securing more businesses, but not franchises or big-box chain stores, but independent and local businesses. Respondents identified that through beautifying the entrance of the City, increasing signage, and offering a checklist for prospective investors it could help motivate and attract investors. Responses also included the idea of creating a bypass and/or traffic deterrents to aid the safety, aesthetics, air and noise pollution of the City. There are inconsistencies in opinion between the respondents about the potential of Ellis Lake, as some respondents think it is a valuable asset while others think it isn't and should be the last priority for investment.

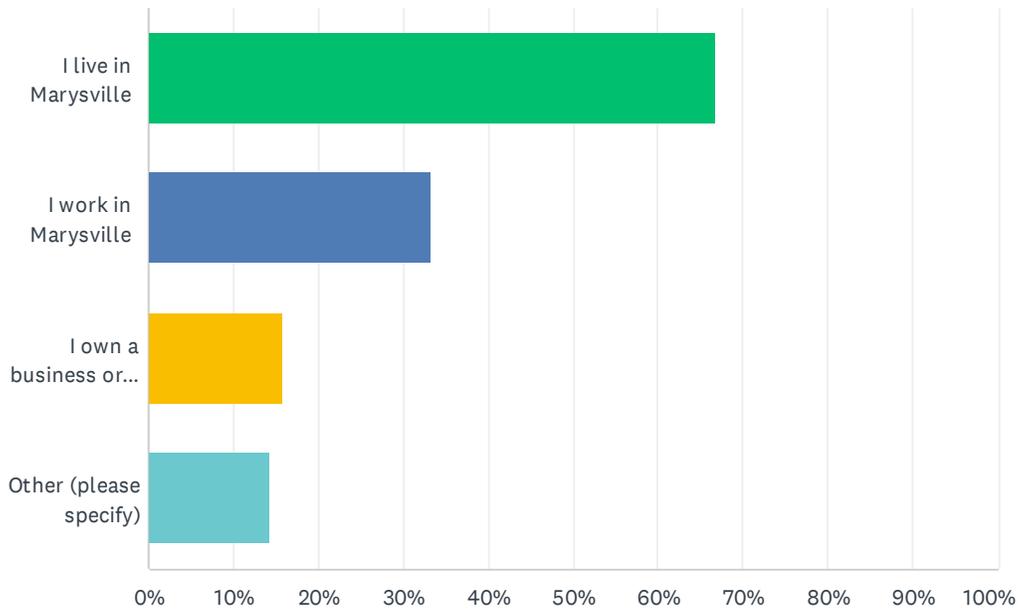

Question 8: Think of a city or neighborhood you love. Why do you love it?

The responses generated from this question were in alignment with what was identified for the most important needs of the City and what the most challenging issues are. The top reason why a respondent loved a city or neighborhood had to do with having many entertainment options, followed by the cleanliness and safety of an area, ease and enjoyment of walking and biking to reach a destination, a unique experience offered, and recreational activities.

#	RESPONSES	DATE
1	The size of town is optimum to be a 15 minute city but the infrastructure for vehicles and trains makes it unfriendly to any other mode besides cars. Marysville has the potential to be the city where people move because of its charm and ease of	5/30/2022 7:13 PM
2	This ranking is based on massive traffic, noise, poor air quality and urban blight problems.	5/28/2022 8:06 AM
3	Keep the town quaint. No big business and retail. E st. is a perfect example of how that does not work. We need better parks for our kids.	5/23/2022 10:29 AM
4	im seeing more road progress..much needed	5/22/2022 6:36 AM
5	Marysville made a huge mistake by tearing down all the history downtown we have so much History and we could have been like old Sacramento we had so much charm in the bars that had swinging doors and cherry wood bars I have heard that some of those bars came around the horn there was chisler Inn,Brunswick,and several bars with the swinging doors at one time I thought you were going to put a steak house restaurant with lot of windows that look out over the lake and have a walking bridge from D st in front of the Elks Club that would have been a real big money maker you need some clothing store like in the past well I don't know what you can do being you have already tore down a lot of history.	5/20/2022 4:22 PM
6	I enjoy the city culture to family.	5/19/2022 9:04 AM
7	Promoting our beautiful rivers, history, downtown charm has not been at the forefront of our staff's to do list. I go outside Marysville for my outdoor recreation but I should not have to as we have the ability to have a beautiful outdoor trails and promote kayaking, camping and the like. Our town will remain as is unless we begin to do the things we only talk about among the people who live here. Follow up to promises and goals set. it's unclear if promises and goals made are on the current radar as there has not been active outreach or communication. Hopefully folks haven't given up thinking their input is a waste of their time and they give it again.	5/18/2022 7:18 PM
8	The golf course and that everyone knows everyone.	5/18/2022 3:27 PM
9	Would love a huge "Community Center" centralized here enclosed with maybe a Theater with movies & the center where many groups and organizations can use for Community Events which will hold youth & Senior activities maybe a Parks n Rec Dept... could head it up...	5/18/2022 7:20 AM
10	Very difficult to answer ... I like the idea of charm but we do t really have it. I love the lake and parks but it's a mess with homeless! The history is nice but it's over done and really it doesn't help with anything.	5/17/2022 1:49 PM
11	when people drive over the bridges to come into Marysville see bright lights, a beautiful blue Ellis lake, State Theatre, clean streets. A safe town. A Hallmark town	5/16/2022 5:20 PM
12	I like all four of things about Marysville, and they're all important to me. I'm new to town, and like the sense of possibility here.	5/16/2022 2:20 PM
13	The Drug Addicts that permeate the streets need to be removed. The littering between F and H streets is constant. Around the Salvation Army and Walgreens.	5/11/2022 11:37 AM
14	No Comment.	5/10/2022 5:53 PM
15	I feel the city need major updating. The small town charm only goes so far when the roads and pavements are in disrepair.	5/10/2022 11:50 AM
16	Small town	5/7/2022 9:23 PM
17	Melting pot of multiple cultures.	5/7/2022 8:49 PM
18	Natural beauty would have been #1 if Ellis Lake didn't look the way it did and if our parks has	5/7/2022 7:18 AM

	improvements	
19	Not much	5/6/2022 6:03 PM
20	All of this is spoiled by the traffic from the 2 highways coming into town	5/6/2022 10:43 AM
21	I would love to see an improvement in the natural beauty, and outdoor and recreation activities.	5/6/2022 10:19 AM
22	The town is so rich with history. I enjoy walking around the downtown. The historic value of the town seems to be slowly evaporating as buildings are torn down and replaced or not replaced. The old homes are being made into multi units and not cared for on the outside. The boarded historic buildings only bring a depressing feeling to the town instead of showing it off	5/6/2022 7:58 AM
23	Yuba Sutter Arts and Culture	5/6/2022 7:09 AM
24	"Small town charm" exists when it's residents are charming, not backwoods, anti-vax, Jefferson State, QAnon, MAGA brains.	5/6/2022 5:35 AM
25	The homeless people are taking over our area, making the rivers and parks disgusting.	5/5/2022 10:41 PM
26	Natural beauty and walkability has significantly diminished over many years with the increase of traffic and erosion of roads.	5/5/2022 9:58 PM

Q4 What are Marysville's biggest challenges today? Rank the following with 1 being the most challenging issue.

Answered: 63 Skipped: 0

Q5 Please share any other comments you may have for Q4 below:

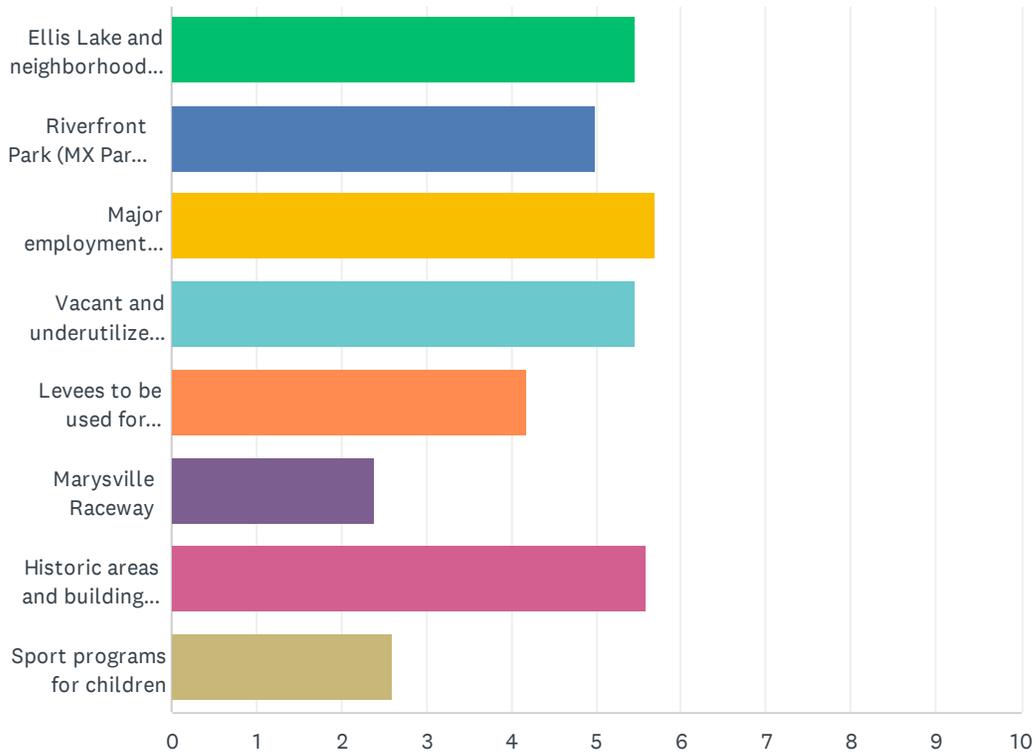

Answered: 29 Skipped: 34

#	RESPONSES	DATE
1	Noise from cars and trains. A city this size should be quiet but it is very loud, especially Friday and Saturday night. Good schools are also a challenge, we need to good school to attract businesses and families. The physical constraint to growth is actually a benefit because it ensures we don't add more cost burden of infrastructure, since we can barely keep up what we have. The cost of additional infrastructure is dwarfed by the maintenance cost in the future. We need to consider a vacancy tax on building fronting the state highways, these places should not be empty for decades, I also believe we should preserve our historic architecture because thats actually a very valuable thing to have now and in the future.	5/30/2022 7:13 PM
2	Physical constrain is not a "problem." It is a virtue. The city should not permit single story building construction or open space drive-thru business. It takes up valuable space. Create scarcity and build up.	5/28/2022 8:06 AM
3	Homeless and trash need to be addressed. Garbage cans at every park. City workers working harder to keep the town clean. Self policing homeless letting them know littering is not ok and Marysville will not stand for it	5/23/2022 10:29 AM
4	Our identity needs to be our fishing,duck and pheasant hunting our peaches and prunes and plums walnuts almonds	5/20/2022 4:22 PM
5	Attraction of bigger business through tax credits and or conditional use permits. You have to give upfront and take a loss but will be rewarded in the long-term.	5/19/2022 9:04 AM
6	Traffic is a major issue all day; the priority has been to cars not people who live here. With that Car/truck noise decibels has increased dramatically with addition of allowing vehicles to have loud mufflers, it highly impacts residents because we have freeways going through the center of town. Cities succeed when they build community (involve and encourage public input). Folks like to shop where they feel safe, and things look good. Trash always in downtown less trash cans, now see jammed full from Saturday to trash pick up. Appearance is #1 which includes vagrants. Physical constraints is an excuse to why we haven't thrived. Owners not investing #5 as we don't have to wait for that work with owners that are engaged and want to make things happen. Incentives with programs.	5/18/2022 7:18 PM
7	Marysville needs to be a more attractive area for more economic and infrastructure growth.	5/18/2022 3:27 PM
8	I would of given every option a 1 or 2 if I could have	5/18/2022 3:07 PM
9	The large trucks and fast traffic cutting through neighborhoods would make anybody think twice about wanting to live in many sections of our city. We don't even have speed limit signs in my section of town. I like walking there	5/18/2022 1:08 PM
10	TrFic is a problems during the compute hours. I personally feel every entrance into Marysvllle should be beautify	5/18/2022 7:20 AM
11	Take care of the top 3 and the rest will come.	5/17/2022 1:49 PM
12	all of the above needs to be fixed. STOP Caltrans, they do not care about our small town.. they need to go around Marysville not thru our town with more traffic.	5/16/2022 5:20 PM
13	We need to attract smaller, quality employers- artisan food/beverage, manufacturing, artists, popup attractions, music venues to raise tax base and increase civic participation. The rest will follow.	5/16/2022 2:20 PM
14	The city needs to clean up the streets. Also raise the drainage inlets on the corners to grade. Lamon created potholes on every corner.	5/11/2022 11:37 AM
15	No Comment.	5/10/2022 5:53 PM
16	Marysville needs to grow and become more diverse.	5/10/2022 11:50 AM

17	We need more employment opportunities	5/7/2022 9:23 PM
18	I believe Marysville is pricing itself at a higher rate than what is realistic for the residents and business in the area. I have seen several business start in Marysville just to leave for cheaper business cost in Yuba City. I also question where the funds the city does have is being allocated	5/7/2022 8:49 PM
19	The streets and parks are in need of repair! There are potholes everywhere! We also need sidewalks repaired. There are homeless everywhere. I live on the North side of G street and people use our residential street for a pass through to East Marysville and North 70, cars fly down the street often running stop signs. Also if we had much better sidewalks and there was clean up and parks and garbage cans places it would help. Our sidewalk is falling apart and we were told it's our responsibility to repair. It should be the city cleaning up the sidewalks and roads.	5/7/2022 7:18 AM
20	Ellis lake should be taken care of. The walkway is broken in many sections and the weeds rampant.	5/6/2022 3:09 PM
21	Traffic is not LIMITED to peak hours	5/6/2022 10:43 AM
22	Physical constraints to growth is a misnomer. We have plenty of space we are not using well.	5/6/2022 10:19 AM
23	The challenges seem to be with vision and securing the investors that fit that vision instead of chain coffee shops and restaurants. There is an overwhelming amount of section 8 housing within the city which appears to limit the growth and investment potential	5/6/2022 7:58 AM
24	Homeless add to most of these	5/6/2022 7:09 AM
25	Find a way to make the 70/20 bypass a reality or it will strangle the city to death.	5/6/2022 5:35 AM
26	First thing people see entering marysville from 70/65 direction are boarded up tall buildings and a stretch of buildings not kept up which gives an unpleasant impression where people don't want to deviate from traveling straight through. It also is not appealing for those who may otherwise consider moving to Marysville.	5/5/2022 4:24 PM
27	Build nice housing, annex district ten, move levees. A freeway bypass. We have HUGE traffic problems getting into and out of Marysville from the south is a mess. Bypass could be done up on levees, extend and widen take out to meet goldfields rd in edgewater.	5/5/2022 3:32 PM
28	Traffic congestion at ALL times of the day. The convergence of 2 state highways and the jig-jog of them through town. Get the traffic out!	5/5/2022 1:44 PM
29	the community has done a great job dealing with the negative affects of homelessness. including new shelter beds, 14 forward and enforcement of no camping areas in river bottoms	5/5/2022 11:39 AM

Answered: 23 Skipped: 40

#	RESPONSES	DATE
1	Marysville is a small city center. Real estate is our greatest asset but it is underdeveloped. Riverfront (and River Bottoms) park are misused with motorsports. There shouldn't be more noise and air pollution than the state highway already contributes. Green spaces are more valuable than motorsports where RV's bring their own food/lodging/support and contribute less (money) than what they leave behind (noise and air quality). The Yuba river is a treasure but the motorsports also limit access. Sport programs for children belong in the suburbs, not city center. This should be a live/work community where people can bicycle, scooter, and walk in peace and quiet.	5/28/2022 8:06 AM
2	Our parks are horrible. What happened to the grant money? Equipment is outdated and falling apart. No shade. No trash cans. Much improvement needed at all parks and Ellis Lake. More money towards childrens sports	5/23/2022 10:29 AM
3	Ive always like the buttes in the back ground,, where ever your course takes you during the day once you see the buttes you know your almost home..	5/22/2022 6:36 AM
4	Ellis Lake and Neighborhood parks need to be safe for families to enjoy	5/20/2022 4:22 PM
5	Slow development around Original Peach Tree Mall. Empty buildings near Rideout Hospital. Blight, overgrown and decay around historical buildings. Need improvements.	5/20/2022 4:01 PM
6	To many lots vacant and not used for commercial use. The only thing I see is a section 8 development in East Marysville. What a missed opportunity to bring in business that translates to sales tax and more outside traffic bringing outside money.	5/19/2022 9:04 AM
7	Add rivers to the recreation area. We could have beautiful trails that would be a draw along our rivers. We do need more for kids and families and installing those items in our parks would be huge. Adding a volleyball area, dog park and other activities, they are under utilized. It's like we don't have any idea what parks are about. Please travel and see. We should have no smoking in parks that further helps bring youth and family.	5/18/2022 7:18 PM
8	We bought our house partly because of its proximity to Ellis Lake. Unfortunately, most families are afraid to use it now as the homeless have kind of taken it over. Most days the ramp entrance is completely blocked by homeless people who are living there. It should be a gem, but with the trash in and around the lake it is more of an eyesore now.	5/18/2022 1:08 PM

#	RESPONSES	DATE
1	We need a community pool and recreation center. We are severely lacking in any sort of recreation or active programs. Since its so difficult to bike or walk to west Marysville from East Marysville we need more business next to Farmers Marketplace (or any other empty lot) such as Mini Pharmacy, Coffee shop, good restaurant, retail, hardware, brewery, bar.	5/30/2022 7:13 PM
2	Think of Marysville in terms of Midtown Sacramento and East Sacramento near McKinley Park. That is the formula.	5/28/2022 8:06 AM
3	Restaurants and small businesses are needed. Give them a tax break so they establish in Marysville.	5/23/2022 10:29 AM
4	A lot of the older buildings can be cleaned up and retrofitted to be safe , they are what makes Marysville a wonderful place we need to save them and there nostalgia.	5/22/2022 6:36 AM
5	The motels you have in Marysville you have them for the homeless or druggies I wouldn't want to drive into Marysville and stay at a motel and feel safe	5/20/2022 4:22 PM
6	I love Habitat for Humanities but what a property to incise big business. The old Montgomery Wards, we could put our government center any ware that was not such a prime location for business. Big mistake. Think business not Government.	5/19/2022 9:04 AM
7	Having more attractions and nightlife and restaurants will lead to hotels. Building hotels first before you have the other is not a good plan. A community center/sr center would do this town good. Packard Library, the unused hop sing, suey sing buildings, so many options. Helpful to have in walkable easy to get to for people and central area (downtown).	5/18/2022 7:18 PM
8	More restaurants on D St or cafes	5/18/2022 7:20 AM
9	We need to utilize what we have. Run out the homeless and slum lords.	5/17/2022 1:49 PM
10	Unique businesses. We could use a good bakery, deli, cheese, and wine shop, book store, sewing craft shop, and other useful, interesting small businesses. And of course, more restaurant choices.	5/17/2022 10:09 AM
11	Moratorium on fast food and chain restaurants, more independent small businesses, public pools/tennis courts. We also desperately need public trash cans.	5/16/2022 2:20 PM
12	The first priority should be to clean up the homeless. We have alternative housing now enforce it.	5/11/2022 11:37 AM
13	No Comment.	5/10/2022 5:53 PM
14	Need more good restaurants - something to make people drive here.	5/9/2022 7:56 AM
15	A third bridge out by Plumas Lake connect to Yuba City to redirect some of the traffic that is only coming into Marysville to go to Yuba City/Shanghai Bend housing and vice versa.	5/7/2022 8:49 PM
16	I have to drive to Yuba City to do all my grocery shopping for good quality. There are a few good restaurants in town but most are in Yuba City. We could use a large gym with a pool, maybe something like a indoor adventure (rock climbing), Ax throwing etc.	5/7/2022 7:18 AM
17	We need better quality grocery options in the city. More should be done to protect and restore homes already built in the city than building more.	5/6/2022 3:09 PM
18	What does the city have that draws anyone in to stop as they drive through? As people become priced out of Sacramento, why are they choosing the new homes on the outskirts of the city instead of the city itself as they have in other areas such as lincoln. If people don't feel safe to live in the area they won't. They will not choose to live and work in an area that is overpopulated with homeless that they constantly will have to deal with	5/6/2022 7:58 AM

19	Your up-and-coming generations can't afford to buy homes and have kids. If you want growth you'll need to cater to them, and that means emphasis on children's programs and family development takes a back burner to economic opportunity and financial stability. Staples like food and shelter are primary needs, not sports programs. Further, employers are only good insofar as they can compete with Sacramento-area offerings. Nobody wants to work for employers who may offer substantially lower pay and eventually renege on loyalty benefits like pension plans.	5/6/2022 5:35 AM
20	All of these feel equally important.	5/5/2022 10:41 PM
21	Better shopping options, downtown, especially.	5/5/2022 7:16 PM
22	Locally centric natural foods coop	5/5/2022 4:49 PM
23	Restore buildings and new businesses	5/5/2022 4:24 PM
24	Many buildings, homes, businesses, that do not take care of their grounds and appearance	5/5/2022 3:32 PM
25	A bypass around Marysville to allow the city to thrive.	5/5/2022 1:44 PM
26	restaurants should be its own category...	5/5/2022 11:39 AM

Q10 What are the barriers to convenient and safe biking and walking to reach destinations? Rank the following with 1 being the most prominent barrier.

Answered: 59 Skipped: 4

	1	2	3	4	5	TOTAL	SCORE
Safety features (lighting, signage, dedicated lanes for bicyclists)	42.37% 25	22.03% 13	18.64% 11	10.17% 6	6.78% 4	59	3.83
Not enough walk paths or bike paths	16.95% 10	35.59% 21	20.34% 12	20.34% 12	6.78% 4	59	3.36
Dangerous drivers	23.73% 14	11.86% 7	32.20% 19	22.03% 13	10.17% 6	59	3.17
Dangerous locations, such as locations where there are higher speeds or where sightlines are interrupted	15.25% 9	27.12% 16	20.34% 12	30.51% 18	6.78% 4	59	3.14
Tree cover and shade for pedestrian comfort and cooling	1.75% 1	1.75% 1	8.77% 5	17.54% 10	70.18% 40	57	1.47

Answered: 25 Skipped: 38

#	RESPONSES	DATE
1	Bad infrastructure is the reason, bike lanes that disappear, no sidewalks or disappearing sidewalks, skinny sidewalks, not crossings, no bulb outs, no traffic calming, no seperated bike paths, incomplete bike networks, no underpass under railroad at 18th west of highway 70, no underpass at 14th street, unsafe alignment/ disappearing bike lane on Ramirez south of 20. Huge streets but no street trees, no proper bike racks. All crossings should be as short as possible for pedestrians - Bulb-outs are needed along B street, E street, 5th street. Use historic bricks at intersections to calm traffic in downtown core. Create roundabouts in east marysville locations. Separated bike lanes, we could be the first in the area with one.	5/30/2022 7:13 PM
2	State Highway and local cut-through traffic. They speed and there is too much of it. Too much traffic in Marysville is the root of all the other problems.	5/28/2022 8:06 AM
3	Speed limit signs in our neighborhoods. Too many people cut through at high speeds because of congestion on 70. Bike lanes and better pedestrian paths	5/23/2022 10:29 AM
4	there are so many drivers that should not be behind the wheel, thes cars should be taken, we really need to focus on removal of burned out stripped cars, they give us such a bad name..	5/22/2022 6:36 AM
5	More bike paths but light enough to be safe	5/20/2022 4:22 PM
6	Highway 70 why we need headlight section at night? What's wrong with not having street lights?	5/20/2022 4:01 PM
7	Things are find in this concern.	5/19/2022 9:04 AM
8	Caltrans could do more on highway i.e. B Street and 9th crossing. It would help if we educated drivers more with signage. Are share the road are sporadic placed. Implement a 15 mph traffic calming program in downtown to help create a safer atmosphere to encourage more shoppers and cyclists. We have awesome places for walking paths that would not cost much to capitalize on.	5/18/2022 7:18 PM
9	More crosswalks! Especially in neighborhoods north of 10th St. if you speed limit signs to slow people down wouldn't hurt either. Yuba City has them on their neighborhood streets, so it is not unheard of to have a few.	5/18/2022 1:08 PM
10	Safety concerns regarding homeless who appear to have drug or mental problems. Condition of sidewalks.	5/17/2022 10:09 AM
11	Fast, very loud cars and motorcycles present hazard on residential streets, plus air and noise pollution. We need a pedestrian bridge over D St., (and then re-route 70 out of the middle of town). Barrier along the lake/B St- so much noise and smog.	5/16/2022 2:20 PM
12	The barriers are people who are crazy on the corners. The city needs to reroute traffic around the city as well. At night people speed down 10th to E street. The peel out and drive very fast. Just start giving tickets. Increase the police budget.	5/11/2022 11:37 AM
13	No Comment.	5/10/2022 5:53 PM
14	When I lived in Yuba City I was walking multiple times a day but now living in Marysville it's depressing to walk around our neighborhood and down to Ellis Lake. I feel like I'm walking around in Compton. Do something about the sidewalks, Ellis Lake, the parks, provide trash cans and dog bag dispenser. Code enforcement needs to monitor houses that are abandoned, have overgrown lawns etc. we need a 311 app to report issues	5/7/2022 7:18 AM
15	Sidewalks and roads suck.	5/6/2022 7:30 PM
16	Sidewalks are often overgrown with weeds or have vehicles parked partially blocking. It is a pain to walk anywhere.	5/6/2022 3:09 PM
17	Traffic. Those who walk or would like to bike commute cannot cross the highways safely.	5/6/2022 10:43 AM

18	People out cycling, walking and dining brings a certain warmth to a town. Marysville has the neat tree lined streets, victorians and bungalow style homes but many have been turned into section 8 housing and look bad. What you see walking around are mostly homeless	5/6/2022 7:58 AM
19	Are you kidding me? DRIVING in the city of Marysville is a dangerous and chaotic proposition. Riding a bike or walking is practically suicidal. You can paint all the bike lanes and put up all the signage you want, but this town will NEVER be safe for alternative modes of transport until you get the freeway traffic out. That's before addressing safety issues like mentally ill and drug addicts roaming the streets. I can't even walk around my block in East Marysville without being harassed by some random passerby. For a residential area is absurdly unsafe.	5/6/2022 5:35 AM
20	Homeless people everywhere is the biggest problem keeping me from enjoying the outdoors more.	5/5/2022 10:41 PM
21	Crossing Main traffic arteries on foot or bike is frightening.	5/5/2022 7:16 PM
22	Bicycling should not be viewed as an "activity", but as a lifestyle choice. Instead of merely riding on weekend for an hour, it is how you get around: to work, school, shopping... and commitment to infrastructure should match. The residential areas are COMPLETELY CUT OFF from the downtown by dangerous crowded highways they town!	5/5/2022 4:49 PM
23	Dangerous, abusive homeless and drug dependent individuals. Parents do not feel it's safe for their children because of them....#1	5/5/2022 3:32 PM
24	Traffic congestion	5/5/2022 1:44 PM
25	connect paths with region - such as Yuba County and Yuba City's pathways - along 5th street, Simpson lane and CA highways 20 and 70. opportunity to create a Bike Hub - Washington Square may be a perfect spot. Opportunity for entrepreneurship opportunities - bike shop, food, tours...	5/5/2022 11:39 AM

Q12 Where should the City focus investment? Rank the following with 1 being your top preference.

Answered: 62 Skipped: 1

	1	2	3	4	5	6	7	8	9	TOTAL
Ellis Lake (more paddleboards, improve walkability, improve infrastructure)	16.95% 10	16.95% 10	13.56% 8	11.86% 7	15.25% 9	3.39% 2	6.78% 4	10.17% 6	5.08% 3	59

Q13 Please share any other comments you may have for Q12 below:

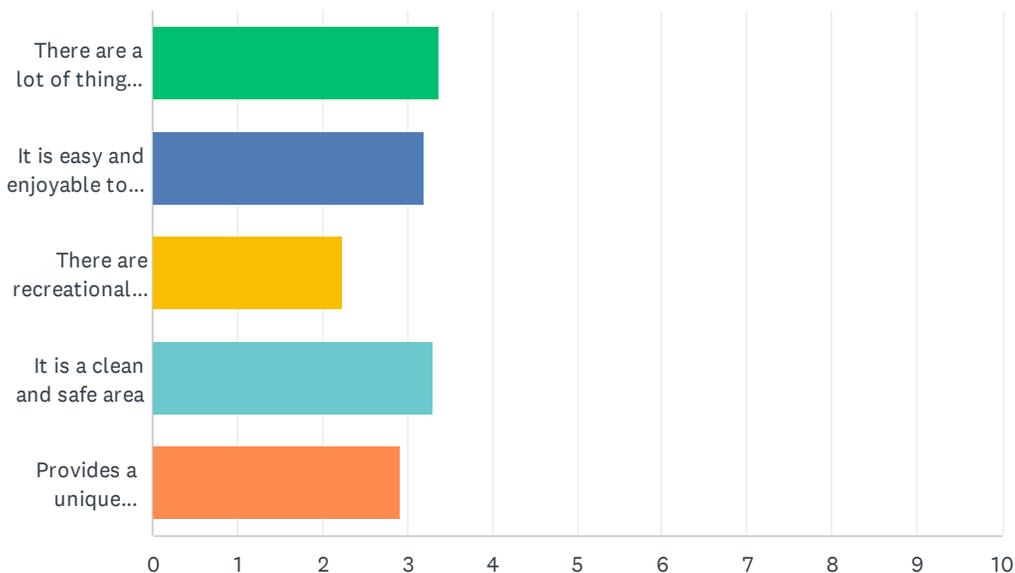

Answered: 20 Skipped: 43

#	RESPONSES	DATE
1	The city should also focus on getting a commuter train station next to the B street property and maybe even making that property a Huge community space/plaza. residents have very little way to go places and Amtrak makes you take a bus to Sacramento and get on a train even if you're heading north.	5/30/2022 7:13 PM
2	Hotels is a joke. Nobody wants to stay here. You have to deal with the traffic, urban blight, recalcitrance landowners first and then focus on business and entertainment development. Quit selling out to franchise box chain crap stores please like Dutch Brothers! How do you think that impacts local small business? Educate city staff and representatives about how small towns become sustainable. www.strongtowns.org We cannot become sustainable using franchise investments.	5/28/2022 8:06 AM
3	Who in their right mind would paddle board on Ellis Lake? Stop focusing on Ellis and focus on the childrens parks that need improvement. All childrens parks should take priority over Ellis	5/23/2022 10:29 AM
4	The questions speak for themselves it's obvious of what comes first, safety first	5/22/2022 6:36 AM
5	I don't like infrastructure for older buildings if it means tearing them down the should just make them like they were. Ellis lake would be nice with the paddleboards we have had them before.	5/20/2022 4:22 PM
6	Cleaning up around Yuba County. Getting rid of empty buildings that no businesses are interested in.	5/20/2022 4:01 PM
7	I am sorry, but just the questions show how disconnected the strategy is with the needs of the town. More business!	5/19/2022 9:04 AM
8	Signage! City should be investing in promoting our downtown to the freeways passing through to increase tourism. Encourage business by making a pamphlet for starting a new business in Marysville with checkmarks of items they need to get down. More appeal along E street. Traffic calming. Why should we care if traffic needs to move slower through Marysville? Aren't they more likely to stop and not cause accidents car and pedestrians. Charging stations would be little investment and would promote tourists who drive electric to stop. There are business incentives out there for businesses to install. Just getting the information to them may facilitate installation.	5/18/2022 7:18 PM
9	STOP Caltrans this will help the traffic in town. Stop light on Highway 20 and east 22nd.	5/16/2022 5:20 PM
10	Increase new tree planting! The very large, old trees are so valuable but won't last forever. We need others coming up alongside them.	5/16/2022 2:20 PM
11	Police Budget. It was not on the investment list. We need to have law and order first.	5/11/2022 11:37 AM
12	No Comment.	5/10/2022 5:53 PM
13	I think by improving the entertainment, more people move here, and more money for the city .	5/10/2022 11:50 AM
14	Proper lighting in business sections like D st to encourage the business to be open later.	5/7/2022 8:49 PM
15	So much of this is a priority in this town. Again the roads and sidewalks need repair badly. We need to clean this city up! Do something about the old hotel sitting there and all these vacant building. We need a 311 app to report houses in need of clean up, road issues etc. We are tired of people using our street (G street) as a pass through to East Marysville	5/7/2022 7:18 AM
16	If the city does not move to protect places of historical significance now it will loose them forever. It would be nice to have things at Ellis lake but that also requires fixing the walking path and major clean up landscaping wise. Weeds and grass in that area are so high you could lose a child.	5/6/2022 3:09 PM
17	Not sure where this applies, but a bypass would be great to at least plan for. Would also like some traffic deterrents and speed reduction measures to reduce the noise and air pollution	5/6/2022 10:43 AM

	through the neighborhoods and increase safety	
18	Beautification of the main corridor with better signage of old town. Weekend activities that bring people to the area. Fun runs, cycling and music and other events showcasing the history	5/6/2022 7:58 AM
19	The bus system is very adequate for transportation in town. Better commuter rail or bus services to Placer and Sacramento counties for the majority of us who have to commute south for viable working conditions would be great. Enforce the existing curfews in parks and get the "homeless" loiterers out of Ellis Lake. Pay someone to pick up trash. Widen the walkways and add railing around the perimeter. The sidewalks are too narrow, angle down towards the water, and are a safety hazard for anyone with young children.	5/6/2022 5:35 AM
20	Safe, clean, well kept, roads repaired, buildings repaired, grounds cared for..... TLC	5/5/2022 3:32 PM

Q14 Think of a city or neighborhood you love. Why do you love it? Rank the following with 1 being your top reason.

1	We desperately need a true public space such as a Square or Plaza with either a fountain or statue of someone significant (e.g. Beckwourth or Mary Murphy). We also should think about having D street closed to traffic between blocks or for a couple blocks (3rd to 6th)	5/30/2022 7:13 PM
2	Midtown Sacramento/East Sacramento	5/28/2022 8:06 AM
3	Thank you for giving us the opportunity so speak our mind.	5/22/2022 6:36 AM
4	Old Sacramento is so much fun to go to and enjoy food the big paddle boat plays so much to see	5/20/2022 4:22 PM
5	Good question!	5/18/2022 7:18 PM
6	good luck, Marysville needs work. Teamwork with city council and the people of Marysville. Our town will be beautiful again. Need more stores and restaurants. thank you	5/16/2022 5:20 PM
7	All of these things are very important, as is visual appeal, inclusion, and space designed for people (not cars).	5/16/2022 2:20 PM
8	Your lists do not reflect the right options.	5/11/2022 11:37 AM
9	No Comment.	5/10/2022 5:53 PM
10	The senses of belonging and being welcomed.	5/7/2022 8:49 PM
11	We visited Sonoma of recent and they have building streets and parks and you want to be outside walking around. If we want to support this Blue Zone project in our area we need to clean it up so people will want to be outside doing things. I have to leave the area to go hiking.	5/7/2022 7:18 AM
12	Look at Roseville. Lots of parks, walkable areas, tons of shopping, safe neighborhoods and schools... Money is invested in actual infrastructure, not gimmicky rodeos and light fixtures. Historic buildings and museums are nice, but Marysville has done a fine job destroying most of that potential in the 70s/80s. Focus on liveability and the rest follows.	5/6/2022 5:35 AM
13	All so important. But safety and walkability are huge draws	5/5/2022 10:41 PM
14	Clean, safe and enjoyable... free of mentally ill, drug dependent homeless keep others home, or they our families are moving out of the area	5/5/2022 3:32 PM

Q16 Please provide your contact information if you would like to receive future updates about the Marysville General Plan Update and Specific Plan.
